PROFESSIONAL EXPERIENCE

Frontend Developer - Intern

Numetry Technologies - Pune | Frontend Developer
July 2024 - Oct 2024

- Frontend Development: Designed and developed responsive, **interactive user interfaces using React, React Router, and Redux for state management.**
- Authentication & Authorization: Built secure login systems and implemented role-based access control (RBAC) using **JWT and OAuth.**
- API Integration: Integrated third-party services such as **payment gateways, social logins,** and cloud storage to enhance functionality.
- **Projects:**
  - **Weather Monitoring Application:** Created a weather app with real-time updates, 7-day forecasts, and interactive charts using OpenWeatherMap API.
  - **E-commerce Platform**: Developed a responsive e-commerce site with Stripe payments, shopping cart functionality, and SEO optimization using Next.js.
  - **Rule Engine for Loan Applications**: Built a dynamic rule engine for evaluating loan eligibility with a user-friendly interface and real-time previews.
  - **Employee Management System**: Implemented a dashboard for CRUD operations with Material-UI, filtering, sorting, and MongoDB integration.
- Responsive Design: Crafted mobile-first layouts using **Bootstrap and Tailwind CSS.**
- Testing & Debugging: Enhanced application reliability with unit testing using Jest and **API testing via Postman**.
- Deployment & Hosting: Deployed applications on **Vercel, AWS, and Netlify,** utilizing CI/CD pipelines for smooth integration.

Decalration:

- I certify that the information provided in this resume is true and accurate to the best of my knowledge.
